

### IN-LECTURE QUESTIONS FOR VIDEO 4.3

Note: See the answer key at the bottom of this file.

1. Java import statements are:
    - a. At the top of the Java file (before the class starts)
    - b. In the middle of the Java file (inside the class—between its "{" and "}")
    - c. At the bottom of the Java file (after the class ends)
  2. True or False? You can have a maximum of 1 breakpoint per Java file.
    - a. True
    - b. False
  3. Choose the best response. When running your app in the debugger, a breakpoint:
    - a. Breaks the app into 2 pieces
    - b. Stops the app when it generates an error
    - c. Pauses the application when it reaches a specific line of code
  4. Choose the option that best completes the sentence. The \_\_\_\_\_ contains a set of Eclipse views to help you debug your application.
    - a. Emulator
    - b. Java perspective
    - c. Debug view
    - d. Debug perspective
    - e. Devices perspective
-

**ANSWER KEY:**

1. a
2. b
3. c
4. d
